

# COUNTRY CODES LIST

*Posted on February 27, 2021 by Naeem Noor*

Country codes list displays short numerical codes used when dialing a phone number from one country to another. Each country is assigned a unique code. When dialing a phone number from one country to another, you will need to include the correct country code at the beginning of the number, which will usually replace the leading zero of the local number.

List of over 200 country codes in alphabetical order.
