

FREEMASON

Posted on January 31, 2024 by staff

Freemason symbols are a rich and varied collection of images and emblems that are used by **Freemasons** to represent their values, beliefs, and teachings. These symbols, which are often drawn from architecture, geometry, and nature, have been used by Freemasons for centuries to convey complex ideas and concepts in a symbolic way.

One of the most recognizable Freemason symbols is the Square and Compasses. This symbol, which is often accompanied by the letter "G," is a representation of the tools of the stonemason and is used to symbolize a number of things, including:

- **Order and precision:** The square and compasses are tools that are used to create straight lines and perfect angles, and they are thus seen as symbols of order and precision.
- **Balance and harmony:** The square and compasses are also used to create a circle, which is a symbol of balance and harmony.
- **Wisdom and knowledge:** The square and compasses are seen as tools that are used to acquire wisdom and knowledge, both of which are important to Freemasons.

Another common Freemason symbol is the All-Seeing Eye. This symbol, which is often depicted as an eye surrounded by a triangle, is a representation of God. The All-Seeing Eye is seen by Freemasons as a symbol of God's omniscience and omnipotence.

Freemasons also use a number of other symbols, including:

- **The plumb:** The plumb is a symbol of verticality and uprightness. It is seen as a reminder to Freemasons to live their lives in a moral and upright way.
- **The trowel:** The trowel is a symbol of fraternity and cooperation. It is seen as a reminder to Freemasons to be kind and helpful to others.
- **The beehive:** The beehive is a symbol of industry and productivity. It is seen as a reminder to Freemasons to be productive members of society.

Freemason symbols are used in a variety of ways by Freemasons. They are often seen on Masonic buildings, in Masonic ritual, and in Masonic artwork. Freemasons believe that these symbols can help them to better understand themselves and the world around them.
